

Would You Know What To Do In A First Aid Emergency With A Child?

Nobody likes to think of their child being in an emergency situation, but learning first aid will give you the confidence to be able to help should you need to.

Our Parent First Aid courses are extremely practical and you will have hands-on experience with baby and child mannequins. The groups are small, to ensure that everyone has individual attention.

Parent First Aid Course

Who should come to a Parent First Aid course?

The courses are suitable for parents, expectant parents and carers of babies and young children.

What does the course cover?

- Unresponsive baby and child (breathing or not breathing)
- Choking baby and child
- Bleeding
- Burns
- Raised temperatures (convulsions)
- Poisoning
- Meningitis
